

PROJECT DEVELOPMENT

PERFORMANCE TEST

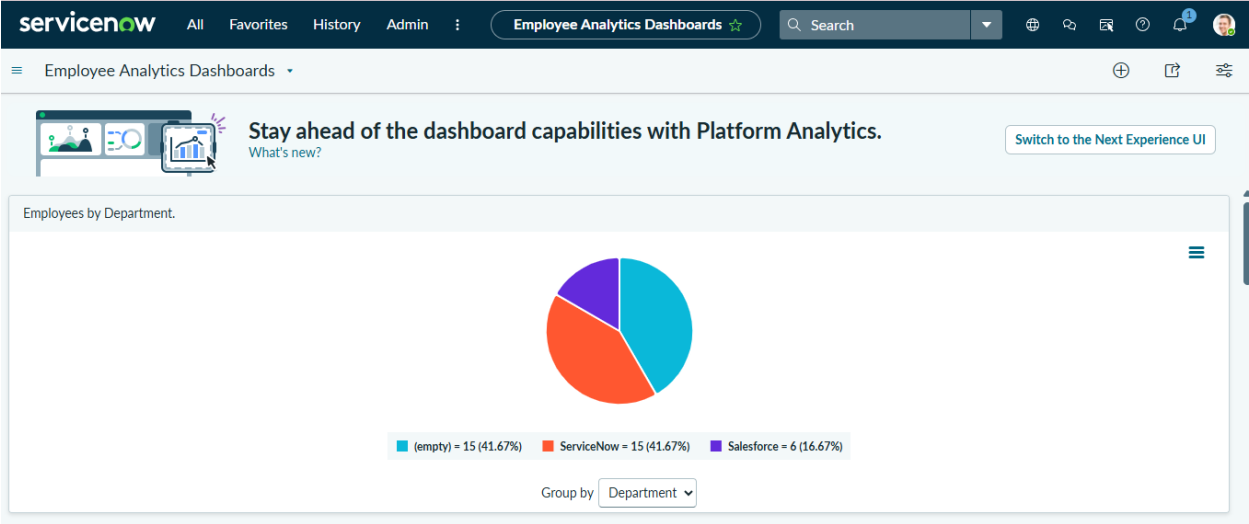

The project implementation should be tested by performing the complete data-import process.

The following screenshots should be captured as project evidence:

1. Employee source data file.
2. Import Sets page.
3. Import Set creation/upload page.
4. Imported source records.
5. Transform Map creation page.
6. Target table selection.
7. Field mapping configuration.
8. Coalesce/unique field configuration, if used.
9. Transform execution.
10. Transform results.
11. Final employee records.

Each screenshot should clearly show the relevant ServiceNow page and should be arranged in the report according to the project workflow.
