

CUSTOMER JOURNEY

The customer journey for the project follows these steps:

Prepare Employee Data

↓

Open ServiceNow

↓

Open Import Sets

↓

Upload Source File

↓

Create/Select Import Set Table

↓

Verify Imported Data

↓

Create Transform Map

↓

Select Target Table

↓

Configure Field Mapping

↓

Run Transform

↓

Verify Target Records

↓

Check Import/Transform Results

The journey provides a clear process from preparing the source data to verifying the final employee records.
