

SOLUTION REQUIREMENT

The following requirements are needed for the project:

Hardware Requirements

- Computer/Laptop
- Internet connection

Software Requirements

- ServiceNow Developer/Learning Instance
- Web Browser
- Google Chrome
- CSV/Excel data file

ServiceNow Requirements

- Import Set
- Import Set Table
- Target Employee Table
- Transform Map
- Field Maps
- Coalesce/unique field if required
- Transform Scripts if additional processing is required

Expected Output

The employee data should be successfully transferred from the source file to the appropriate fields in the target ServiceNow table.
